## 1 QUESTIONS

### 1.1 HAVE YOU HAD ENOUGH OF THIS YET?

Yes. Taking this and Comp Org and Arch at the same time feels like I'm driving and building a train while also building the engine at the same time, but also learning about how the engine works and how to put it together while praying I don't crash and burn before everything is due and my GPA is tanked this semester.

I think at this point my mental state is held together with duct tape and chicken wire.
